Custom Logo Design

The logo of a youth sports organization, club or travel team is the public's first visual connection to their name, voice, tone, and values. It stands proudly for who they are, in or out of season, as well as on or off the field. It represents memories and stories for players and their families and is the basis for marketing communications, promotions, and donations.

Above are logos I have created for Herndon Youth Soccer's organization and some of its teams ([animated here](#)). Do you know of a club or newly formed team that requires such assistance? Are they ready to raise the level of their visual game? Pricing begins at \$200, includes two logo design options, and with the final logo selection delivered in digital formats suitable for print and online.

Let's get creative!
